a. Biometric Data Defined

As used in this BDPD, biometric data includes “biometric identifier” and “biometric information.” “Biometric identifier” means a retina or iris scan, fingerprint, voiceprint or scan of hand or face geometry. As the term is used in this BDPD, the photograph you upload to the software for use in the biometric algorithm is considered a “biometric identifier.” “Biometric data” means any information, regardless of how it is captured, converted, stored or shared, based on an individual’s biometric identifier used to identify an individual.

b. Disclosure and Authorization of the BDPD

- Inform each member that we, our vendors, and/or the licensor of our member verification software are collecting, capturing or otherwise obtaining the member’s biometric data, and that we are providing such biometric data to our vendors and the licensor of our member verification software;
- Inform the member of the specific purpose and length of time for which the member’s biometric data is being collected, stored, and used; and
- Receive consent by the member authorizing us, our vendors, and/or our member verification software to collect, store, and use the member’s biometric data for the specific purposes disclosed by us, and for us to provide such biometric data to our vendors and the licensor of our member verification software.

We, our vendors, and/or the licensor of our member verification software will not sell, lease, trade or otherwise profit from members’ biometric data; provided, however, that our vendors and the licensor of our member verification software may be paid for products or services used by us that utilize such biometric data.
